Audits

HACCP Audits | Food Safety Audits
Supplier Audits | Internal Audits

Crisis Management

Crisis Management, also known as Business Continuity, is the identification of incidents which may prevent companies from supplying.

QMS Audits offers Crisis Management training as a half-day session to satisfy the mandatory requirement of SQF Edition 9.

Incidents from truck strikes to cyclones and floods need to be considered as part of all retailer and GFSI audits. In this Crisis Management training session we work through a series of potential incidents which may occur to your business.

Then as a group we work out the most practical ways these could be prevented or recovered from. Templates are supplied to write your own business continuity plan, which satisfies GFSI requirements. SQF requires members of the Crisis Management Team to have completed Crisis Management training.

Course duration: 4 hours

At QMS Audits we love training so much that we have designed a range of specialised courses, which will satisfy certification requirements as well as drive food safety and quality. We offer 3 options to study: In-House at your facility, in the Classroom and instructor-led Virtual Classroom.

If you need any help or advice in booking this training, would prefer to pay over the phone or be invoiced, please call us on **1300 404 505**.

Price: \$495 +GST
