Internal Auditor

Learn how to conduct an Internal Audit and manage a GFSI level or retailer audit. Comply with SQF, BRC, FSSC 22000, HACCP and Approved Arrangements.

QMS Audits' Internal Auditor Course is essential for anybody working in food manufacturing, food service or in the meat or dairy industries, especially those conducting internal audits under Approved Arrangements.

Learn from consultants who have achieved consistently high scores for clients in their BRC, SQF, Woolworths and CFMSR Audits.

Applying our 'how to' approach, our Internal Auditor training will show you how to identify gaps using common audit trails.

Using actual checklists from BRC, SQF and ISO 22000, students conduct an Internal Audit on two different HACCP plans.

We review Internal Auditor responsibilities based on ISO 1901. QMS Audits Internal Auditor training will teach you how to identify verifiable evidence in the lead up to a retailer, HACCP or GFSI audit.

Course duration: 2 days

Upon completion of coursework and assessment, participants receive a Nationally Recognised Statement of Attainment for the following units of competency:

BSBAUD402: Participate in a Quality Audit

FBPAUD4001: Assess compliance with food safety programs
